AI Customer Support

Seven agents process a ticket: classify, plan, retrieve, draft, review, escalate if needed, log analytics.

Loving the new dashboard

Just wanted to say the new dashboard is awesome - my team is way faster now. Keep it up!

Customer UI-USER, plan team, channel web

What the AI did

- Understood the ticket. Topic: general inquiry. Customer mood: positive. Priority: low.
- Decided strategy: answer directly without the knowledge base.
- Wrote a reply (219 characters).
- Quality check: passed - reply approved.
- Analyzed customer health. Churn risk: low.

Reply that will be sent to the customer

We're glad to hear that you're enjoying the new dashboard! It's great to know that it's making a positive impact on your team's productivity. If you have any other questions or need further assistance, feel free to ask.

Auto-approved by quality check.
